

TIPS ON GETTING GIGS AT MUSIC VENUES.

REACH OUT

Get in contact with the people who put on the gigs - the **promoters**. Find their email or social media. You can find the name of promotion companies on top of gig posters under **'..... Presents!'**

NETWORK

Go to your local gigs and get to know other musicians and promoters. Get a conversation going about what you do and also some helpful advice. **Bonus tip: BE KIND!**

PROMOTE

Get **writing and releasing music** (Demos can also work if you aren't ready to release yet) so promoters know what to expect from you and can put you on the right line up.

LOOKING GOOD

Having a good and engaging social media makes you more desirable and credible to promoters. So make sure to get high quality photos of your band/artist and updated info. **Keeping on brand helps too!**

REHEARSE AND PUT ON A GOOD SHOW

Once you start getting gigs you want to keep getting them. **Best way to do this is rehearse and put on a good show!** Watch your fave bands & artists for inspiration.
